Ti-

My research interests include methodology and application of machine learning, neuroimaging and genetics in brain aging and disorders. Using machine learning, I aim to distill complex, high-dimensional medical data into succinct yet informative dimensional representations that can be translated for personalized medicine. Through my career, I have been a practitioner for open neuroscience.

# EDUCATION

2015-2019	PhD in Computer Science
	Carbanna University Paris

Sorbonne University, Paris, France

2012-2015 Master in Electronic Engineering

Beihang University, Beijing, China

Bachelor in Electronic Engineering 2008-2012

Beihang University, Beijing, China

# RESEARCH SKILLS

Python, R, Bash, Matlab Programming languages

Software and frameworks Machine learning (Scikit-learn, TensorFlow, Pytorch), Neuroimaging (Nipype, FreeSurfer, FSL,

ANTs, SPM), **Genomics** (Plink, PRSice, GCTA, LDSC)

Scientific writing Microsoft Word, LTFX, Overleaf, Inkscape

Development tools PyCharm, RStudio, GitHub

Others HTML, CSS

rumalai Govindaraja

## RESEARCH EXPERIENCE

### August 2019

#### Postdoctoral fellow

#### August 2021

#### CBICA lab, University of Pennsylvania, USA

- > Postdoctoral research working with Christos Davatzikos
- > Focus on dissecting heterogeneity of brain diseases and data-driven dimensionality reduction tech-

Neuroimaging | Machine learning

## October 2015

#### June 2019

### ARAMIS lab, Sorbonne University, INRIA, CNRS, INSERM, Paris, France

- > Four-year PhD training under the supervision of Olivier Colliot and Anne Bertrand
- > Software developer for Clinica
- > PhD dissertation: Structural and microstructural neuroimaging for diagnosis and tracking of neurodegenerative diseases

Neurodegenerative disease Neuroimaging Machine learning

## July 2017 October 2017

### Visiting scholar

#### CMIC lab, University College London (UCL), London, UK

- > Collaboration with Daniel Alexander and Hui Zhang
- > Collaboration on a NODDI paper: Neurite density is reduced in the presymptomatic phase of C9orf72 disease

FTLD Clinical study Neuroimaging
